Viva - Virent Bioclimatic

Our patented product "Viva Virent Bioclimatic" can fold and retract at the same time, therefore it can be used in various environments.

Our product can be positioned to any angle up to 105° to provide desired shade and sunlight.

Viva - Virent Bioclimatic

Our panels are specially designed to provide shade or sunlight, while they can be adjusted to block snow or rain, and allow air circulation at the same time.

Viva - Virent Bioclimatic

Our panels are specially designed to adjust their positions in order to allow cleaning from inside, which eliminates rooftop climbing for cleaning.

Virent bioclimatic, panels are the best architectural solution for non- smoking establishments.

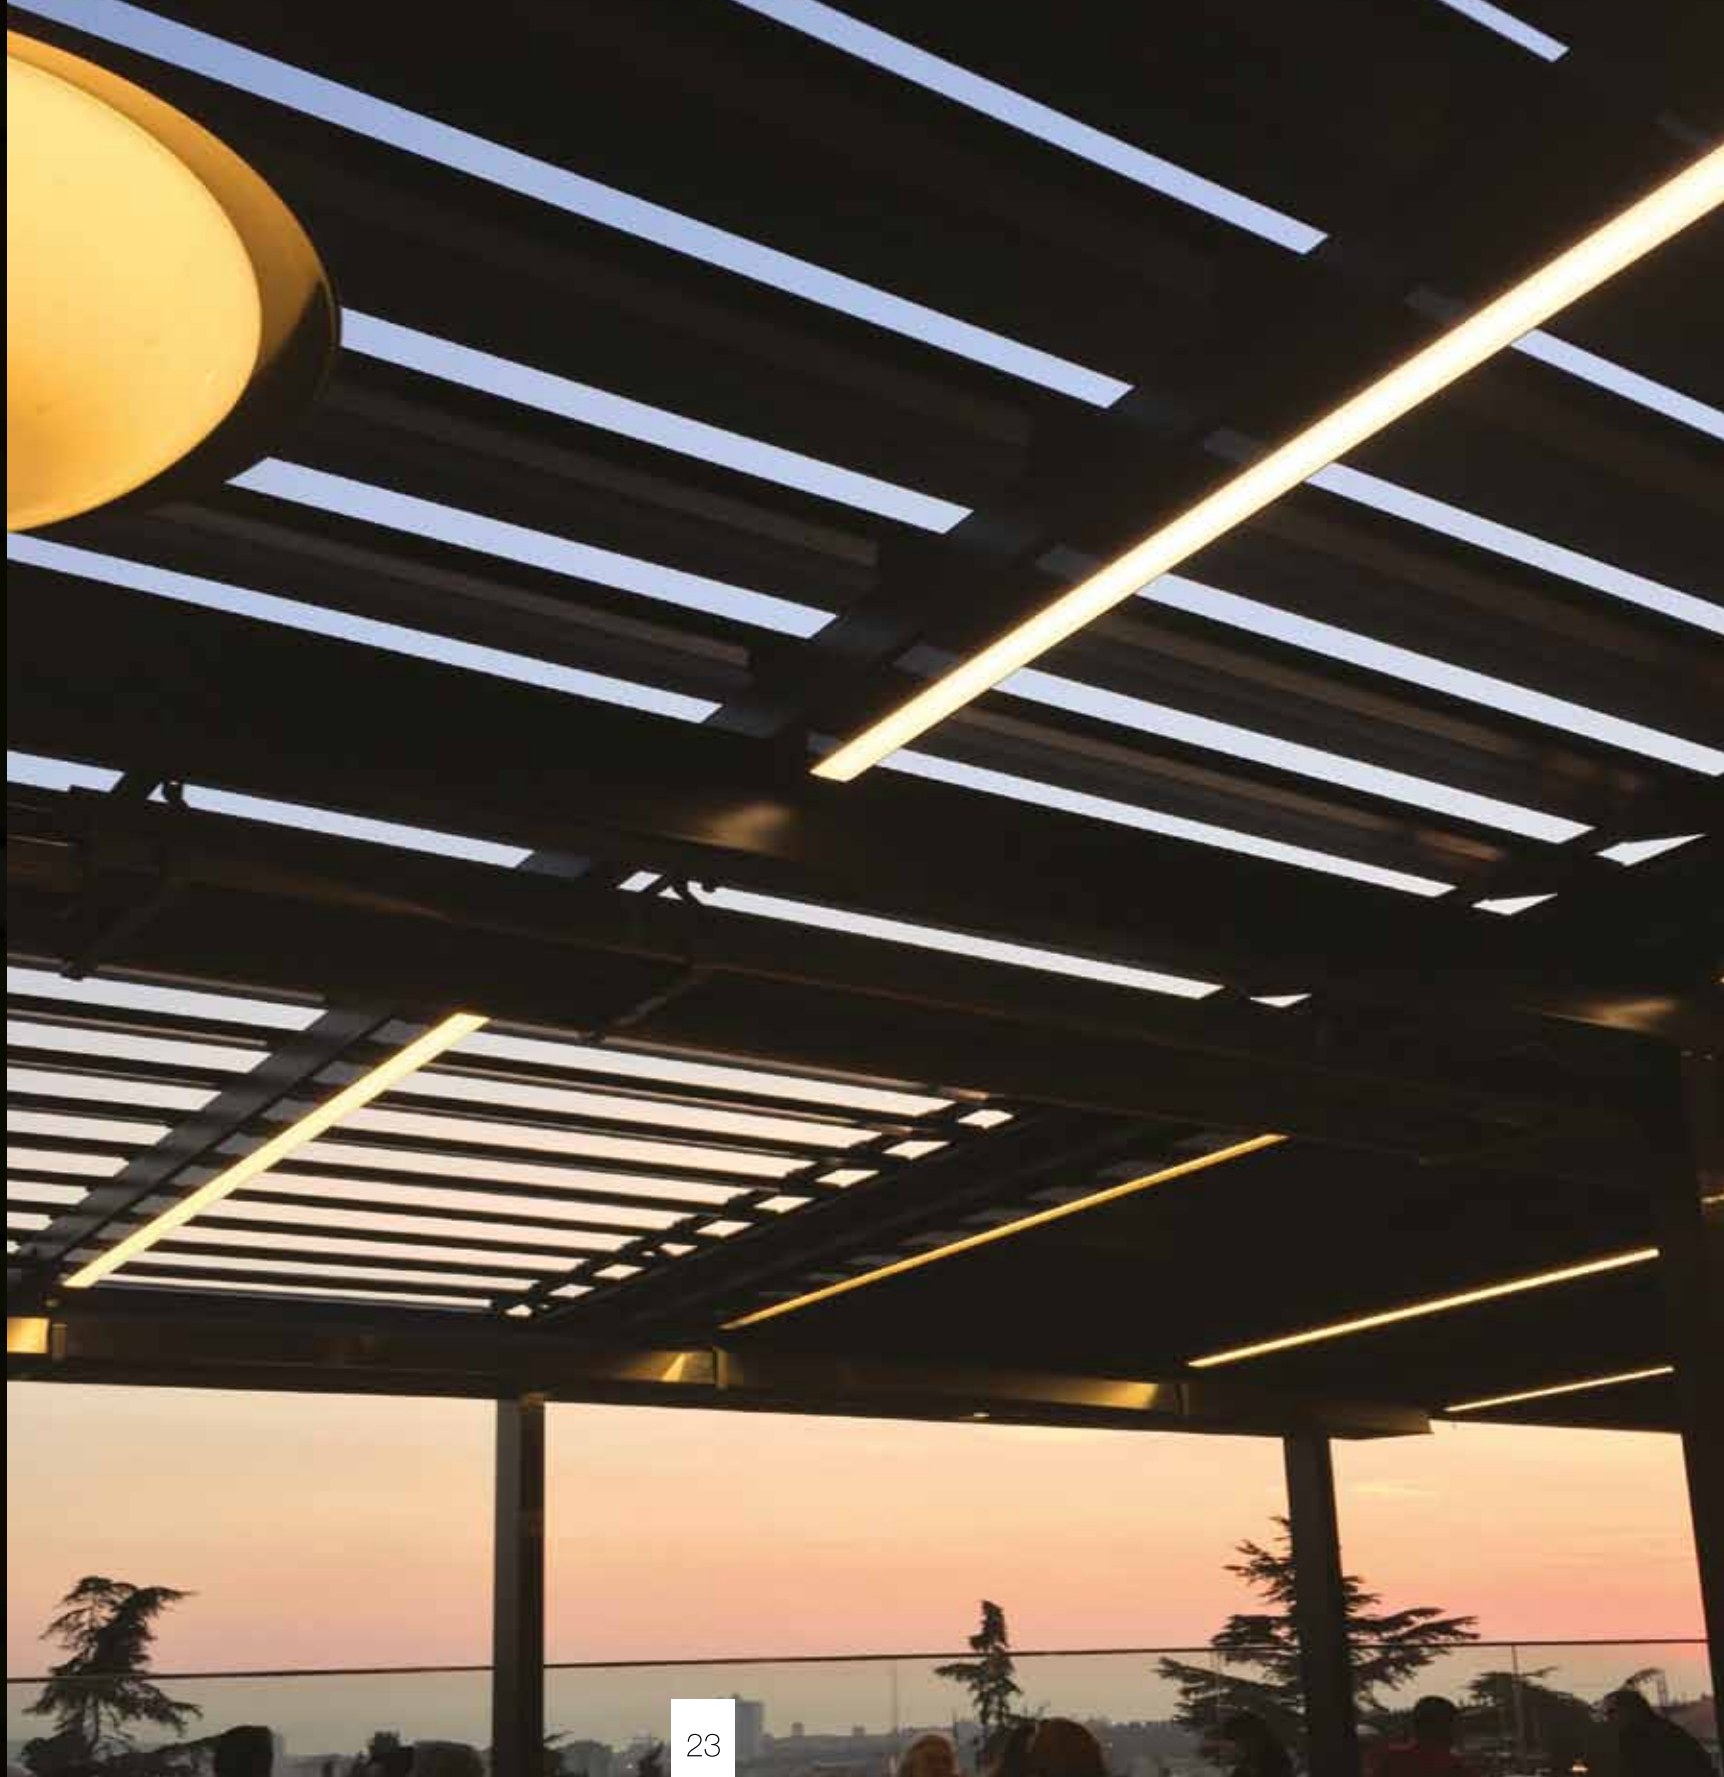

The background of the entire page is a black, tufted leather texture. It features a repeating diamond-shaped pattern created by raised, rounded studs at the intersections of a grid of lines. The lighting creates subtle gradients and highlights on the studs, giving it a three-dimensional appearance.

LUXURY

VIVA - GIOTA

Our Viva Giota with adjustable height makes life easier.

Our Viva Giota can be adjusted to be used as a handrail or Viva Giota with just a push of a button.

Viva Giota

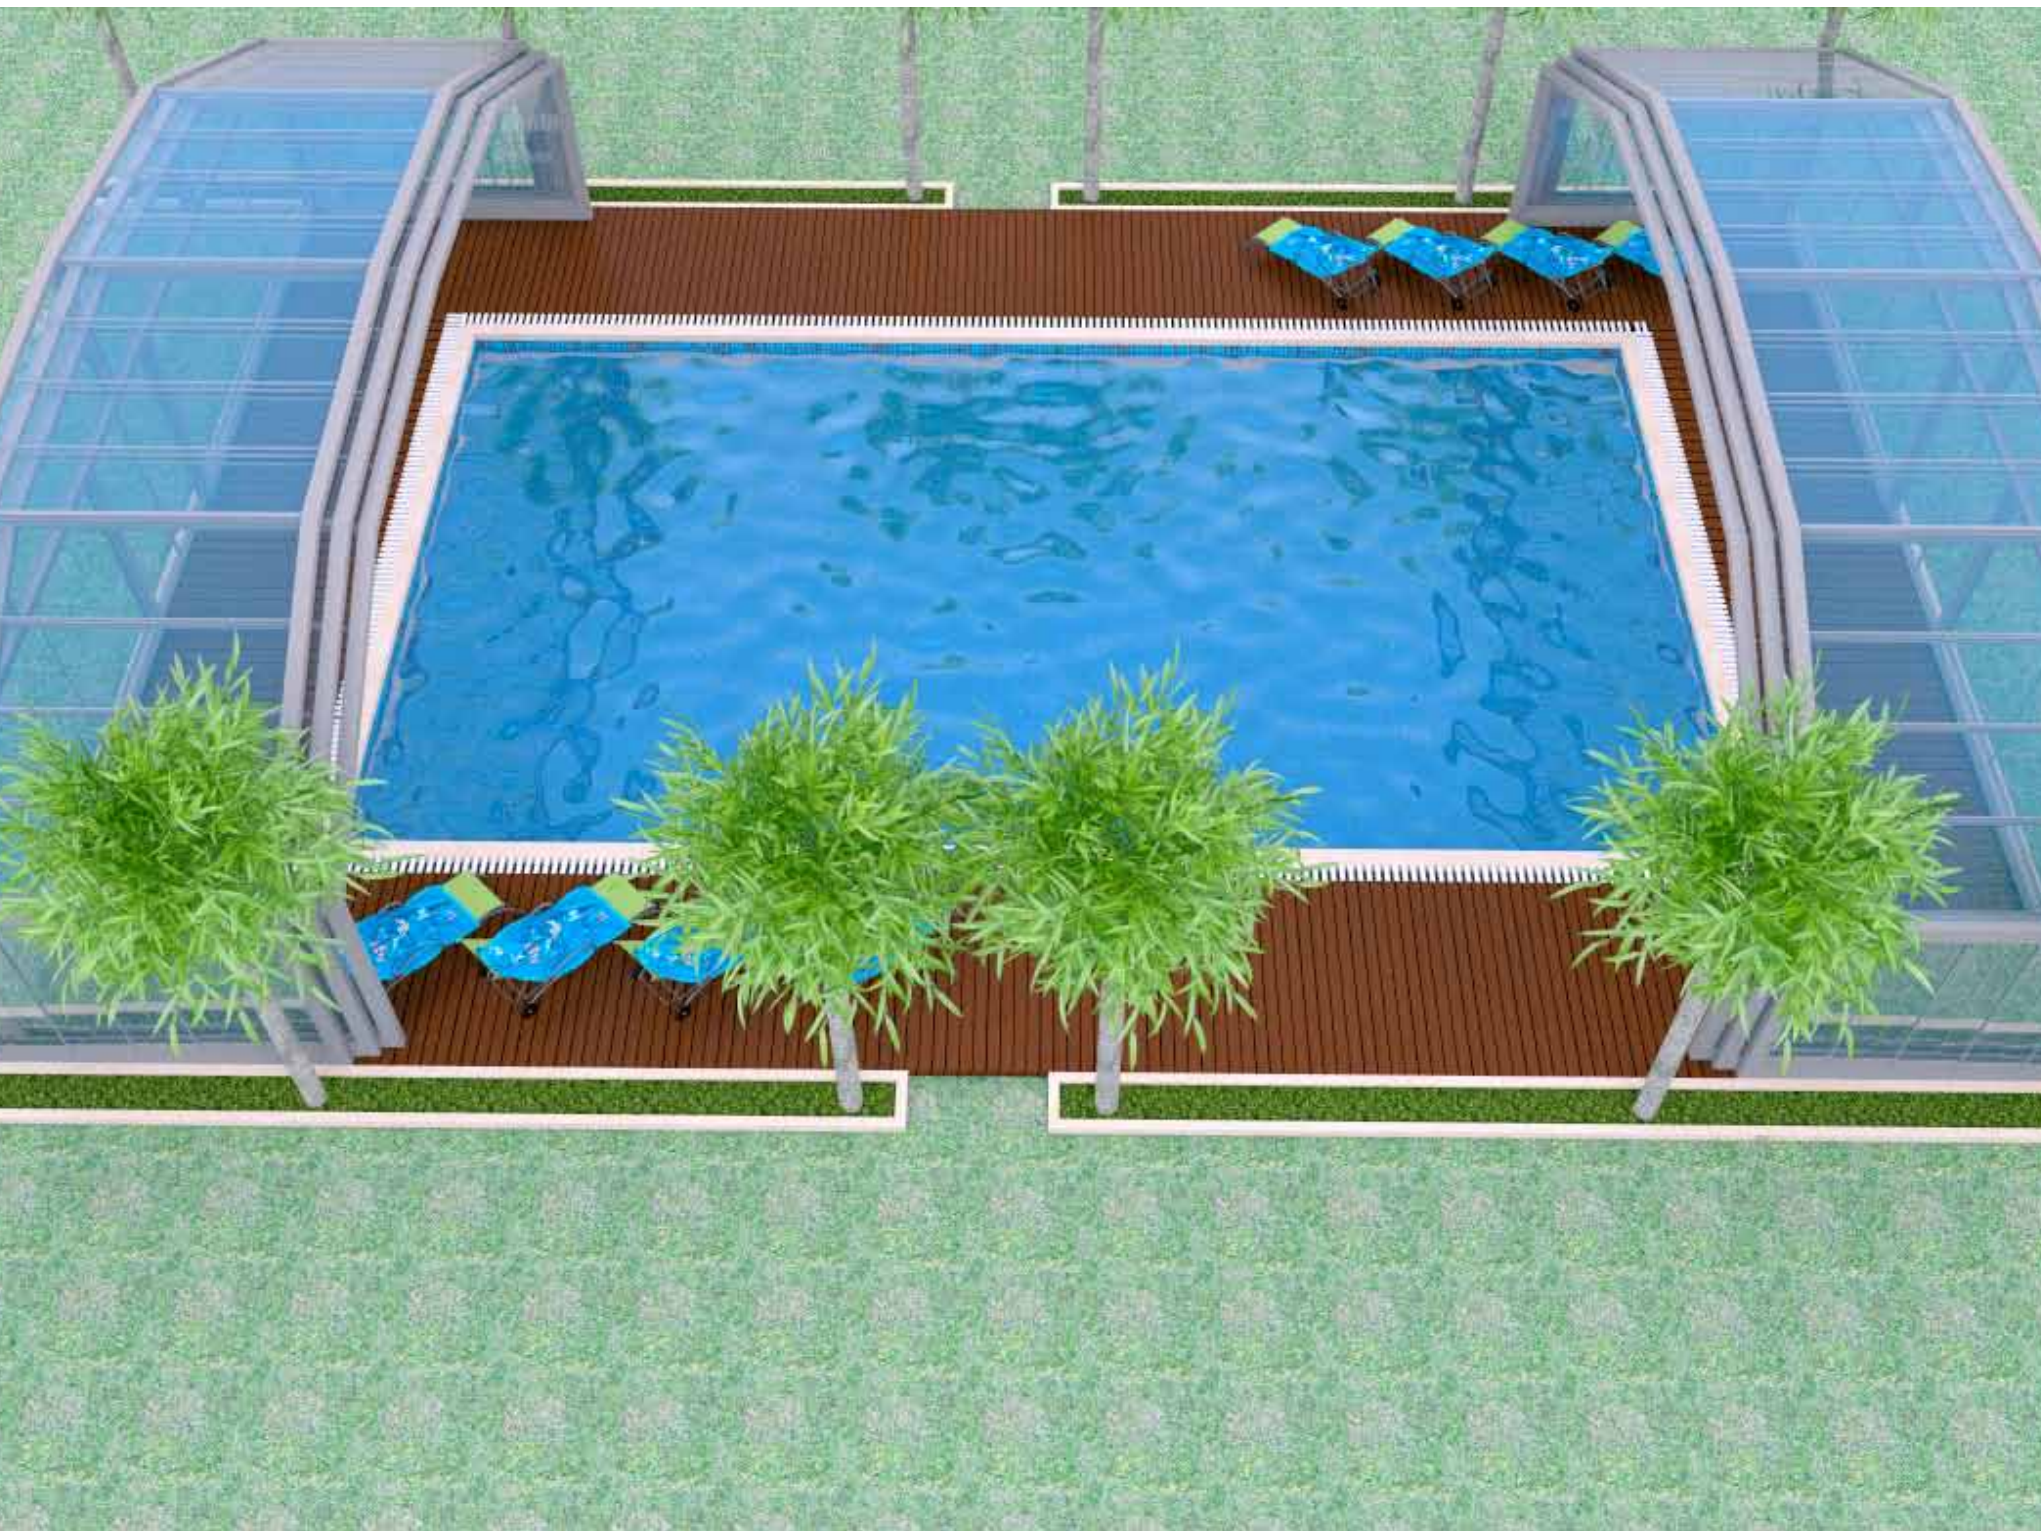

Aluminum and glass merges at the peak of highest technology.

Our Viva Giota can be used at Restaurants, Coffee Shops, Winter Gardens, Terraces, Balconies, around swimming pools, and any place that is needed

Viva - Opening Pool

Although it is designed to be used for the opening pools; with a 4 piece sectional design, it fits in well with most architectural structures like restaurants, cafes, smaller convention centers and reception halls. Pool Systems provide quality, safety, ease of use, optimum value and design simplicity. With Pool systems retractable skylights, your enclosed spaces are no longer limited to being indoors spaces only, open it and see there is nothing left between you and the blue sky.
